1. Introduction

Welcome to the **GenGlow Self-Checkout System** user manual. GenGlow is an integrated cooperative kiosk platform that lets members shop, pay, and manage their account without waiting in line. This guide walks every user — admin, cashier, member, or mobile app user — through the daily tasks they will perform in the system.

Who should read this manual

- **Administrators** — manage members, inventory, transactions, and reports from the Admin Panel.
- **Cashiers / Staff** — process refills, refunds, and assist members at the counter.
- **Members** — use the kiosk or mobile app to buy products and check their balance.
- **Mobile app users** — perform fund transfers and review history from their phone.

How to use this manual

Each chapter focuses on one part of the system. Use the table of contents to jump to your role. Step-by-step instructions are numbered, tips appear in green boxes, and important warnings appear in orange boxes.

Tip: Keep this manual close on your first day. After a week of use, most actions become second nature.

2. System Overview

GenGlow is made up of three coordinated parts that share one database. You can use any one of them on its own, but they work best together.

Admin Panel	A web-based dashboard for staff. Manage members, inventory, transactions, refunds, and
Kiosk	Touch-screen self-checkout terminal. Members scan or pick products, then pay from their
Mobile App	Android/iOS app for members. Browse products, view transaction history, transfer funds, a

Roles and what they can do

Super Admin	Full access	View only	Admin overview
Cashier / Staff	Refill, refund, reports	Assist members	—
Member	—	Self-checkout	Browse, transfer, history

3. Getting Started

Before you begin

- Make sure the server PC is on and connected to the network.
- Confirm the kiosk screen displays the GenGlow login screen.
- Have your username and password ready (issued by your administrator).
- Mobile app users need the latest version installed from the cooperative.

First-time setup

Step 1. Receive your account credentials from the cooperative admin.

Step 2. Open the Admin Panel in your browser at the URL given by the admin.

Step 3. Log in and change your password from the profile menu.

Step 4. If you are a member, ask the admin to refill your balance so you can start purchasing.

Step 5. Install the mobile app and log in with the same credentials.

Important: Never share your password. Each action you take is logged against your account.

4. Admin Panel Guide

The Admin Panel is the control center for staff. Everything from adding a new member to issuing a refund happens here.

4.1 Logging In

1. Open your browser and go to the Admin Panel URL.
2. Enter your **username** and **password**.
3. Click **Sign in**. You will land on either the Super Admin Console or a role-specific dashboard.

Login screen layout

Tip: If you forget your password, ask another admin to reset it from the user management page.

4.2 Dashboard Overview

The dashboard summarises today's activity at a glance. You will typically see sales summaries, active member counts, top-selling products, low-stock alerts and a list of recent transactions.

- **Sales summary** — today, this week, this month.
- **Active members** count and new registrations.
- **Top-selling products** chart.
- **Low-stock alerts** for items to reorder.
- **Recent transactions** with quick links.

Dashboard layout

Navigating the panel

Use the top navigation pills to jump between Dashboard, Members, Inventory, Transactions, Refunds, and Reports. The current page is highlighted in green.

4.3 Managing Members

Add a new member

1. Open **Members** from the top navigation.
2. Click **+ Add Member**.
3. Fill in name, contact number, email, and starting balance (optional).
4. Click **Save**. The new member appears in the list and can use the kiosk immediately.

Members page

Refill a member's balance

1. Find the member in the Members list and click their row.
2. Click **Refill Balance**.
3. Enter the amount received and choose the payment method.
4. Click **Confirm**. A receipt is generated automatically.

Refill balance dialog

Tip: Always print or email the refill receipt to the member as proof of payment.

4.4 Managing Inventory

Add a product

1. Open **Inventory** from the top navigation.
2. Click **+ Add Product**.
3. Enter the name, category, barcode, price, and starting stock.
4. Upload a product image so members recognise it on the kiosk.
5. Click **Save**.

Restock or edit a product

- Step 1.** Find the product in the inventory list.
- Step 2.** Click **Edit** to change price or details, or **Restock** to add received stock.
- Step 3.** Enter the new quantity and click **Save**.

Warning: Reducing stock manually does not generate a sale. Use **Adjust Stock** only for losses, damage, or stock-count corrections.

4.5 Transactions & Refunds

Review transactions

- 1. Open the **Transactions** page from the navigation.
- 2. Filter by date range, member, or status.
- 3. Click any row to view the full receipt.

Transactions list

Process a refund

- 1. Open the original transaction from the Transactions list.
- 2. Click **Refund**.
- 3. Tick the items to refund (full or partial).
- 4. Choose whether the refund returns to balance or as cash.
- 5. Confirm. A refund receipt is created and stock is returned automatically.

Refund item selection

4.6 Reports & Receipts

Generate a report

1. Open **Dashboard** and click **Generate Report**.
2. Choose the report type and date range.
3. Pick the output: PDF, screen, or email.
4. Click **Generate**. Large reports may take a few seconds.

Generate report dialog

Receipt types

- **Cash receipt** — over-the-counter cash sales.
- **Debit / Credit receipt** — credit purchase or balance-paid sale.
- **Credit payment receipt** — when a member repays credit.
- **Refund receipt** — generated for every refund.

5. Kiosk (Self-Checkout) Guide

The kiosk is the touch-screen terminal where members shop on their own. Each procedure below shows the screen the member is on at that step.

Step 1 — Welcome screen

1. Tap **Start** on the welcome screen.
2. Identify yourself: scan your member card, tap your number, or enter your PIN.

Kiosk welcome screen

Step 2 — Shop products

1. Browse by category or type in the search bar.
2. Tap any product to add it to your cart.
3. Tap **+** to increase quantity, or **-** to reduce it.
4. Tap **Cart** at the top right to review what you have added.

Kiosk shopping screen

Step 3 — Checkout

1. Review the cart and the total amount.
2. Tap **Confirm & Pay**. The amount is deducted from your balance.
3. Pick up your printed receipt and take your items.

Cart and confirmation

Tip: If your balance is too low, the kiosk offers to top up first or pay the difference in cash at the counter.

Cancelling a purchase

Tap **Cancel** at any time before confirming checkout — the cart clears and no charges are made. After confirmation, ask a staff member to process a refund from the Admin Panel.

6. Mobile App Guide

The GenGlow mobile app lets members manage their account on the go. Install it from the store link provided by your cooperative.

6.1 Login & Registration

1. Open the GenGlow app.
2. Enter the username (or member number) and password issued to you.
3. Tap **Sign in**.
4. On first login, verify your email with the one-time code (OTP) sent to you.
5. You land on the Home screen showing your current balance.

Mobile sign-in screen

Heads up: Make sure the phone is connected to the same network as the kiosk server, or to the internet if the server uses a public address.

Home screen

The Home screen is your starting point. The big green card shows your current balance, the three buttons jump straight to Products, Transfer, and History, and the list below shows recent activity.

Mobile Home screen

6.2 Browsing Products

1. Tap **Products** from the bottom navigation.
2. Scroll the list or use the search bar to find an item.
3. Tap any product to view details (price, stock, description).
4. Use category pills to filter by type.

Products list

Tip: The product list mirrors the kiosk. Out-of-stock items are clearly marked so you know what to expect at the counter.

6.3 Fund Transfer

1. Tap **Fund Transfer** from the Home screen.
2. Enter or scan the recipient's member ID.
3. Enter the amount and an optional note.
4. Review the summary and tap **Send**.
5. Confirm with your PIN or fingerprint. Both you and the recipient get a notification.

The screenshot shows a mobile app interface for fund transfers. At the top, a green header bar contains the text 'Fund Transfer'. Below this, the main title 'Send funds' is centered. The form includes a 'From' section showing 'You' with a balance of '1,250.00'. The 'Recipient member ID' field contains 'M-0013'. The 'Amount' field shows '100.00'. The 'Note (optional)' field contains 'share for snacks'. A green 'Send' button is at the bottom.

Fund transfer screen

Important: Transfers are final. Double-check the recipient ID before confirming. If you transferred to the wrong person, contact admin to reverse it.

6.4 Viewing Transactions

1. Tap **Transactions** at the bottom of the screen.
2. Scroll through your purchases, refills, refunds, and transfers.
3. Tap any item to view the full receipt.
4. Use the filter to jump to a specific period.

Transactions history

Settings & Profile

- Update your email, phone number, or password.
- Toggle notifications for purchases and transfers.
- View the app version and connection status.
- Tap **Sign out** to log out of the device.

7. Troubleshooting

I can't log in.	Check the username and caps lock. If still locked out, ask another admin to reset your password from the Admin Panel.
The kiosk shows 'Server not reachable'.	Confirm the server PC is on and on the same network. Restart the kiosk app. If the issue persists, run <code>fix_firewall.bat</code> on the server.
Mobile app stays on 'Connecting...'.	Make sure the device is on Wi-Fi reaching the server. Check the API URL in app settings matches the one printed in the admin console.
Receipt printer is silent.	Check paper and USB cable. Re-open the kiosk app. If still no output, print a test page from the Admin Panel printer settings.
Inventory count looks wrong.	Open the product in Inventory, then click Stock History to see every change. Use Adjust Stock to correct the count and log the reason.
Member's balance looks wrong.	Open the member, click Transaction History , then locate the missing entry. Use Refill or Refund to make a corrective adjustment — never edit the balance directly.

8. Frequently Asked Questions

Q. Can two cashiers use the Admin Panel at the same time?

A. Yes. Each user signs in with their own account, and the system tracks who did what.

Q. How do I back up the database?

A. The system writes daily backups into the *backups* folder. Copy the latest *db.sqlite3* to external storage at the end of each business day.

Q. Does the kiosk work without internet?

A. Yes. The kiosk only needs to reach the local server. Internet is only required if you use the mobile app from outside the cooperative or send email notifications.

Q. Can I undo a sale?

A. Use **Refund** from the Transactions page. Direct deletion is disabled to keep the audit trail intact.

Q. What if a member loses their card?

A. Issue a new card from the Members page and link it to the same member record. The old card is automatically deactivated.

Q. Where do the daily report emails go?

A. To the email address set in the Admin Panel's report settings. Check *DAILY_REPORT_SETUP.md* for configuration help.

9. Support & Contact

If you cannot resolve an issue using this manual, please contact your cooperative's GenGlow administrator first. For technical issues that an admin cannot solve, escalate to the GenGlow support team.

Cooperative Admin	On-site, refer to your local contact list
Technical Support	Provided by the GenGlow development team
Documentation	This manual and project README files
Working Hours	Monday – Saturday, business hours

Before contacting support: note the screen you were on, the action you took, and the exact error message. Screenshots help a lot.

Thank you for using GenGlow.
We hope this manual makes the system simple and rewarding to use every day.
